

Model Development Phase Template

Date	05 November 2024
Team ID	739730
Project Title	Figurative Intelligence: Machine Learning for Simile and Metaphor Detection
Maximum Marks	5 Marks

Feature Selection Report Template

In the forthcoming update, each feature will be accompanied by a brief description. Users will indicate whether it's selected or not, providing reasoning for their decision. This process will streamline decision-making and enhance transparency in feature selection.

Feature	Description	Selected (Yes/No)	Reasoning
Simile Detection	The ability of a machine learning model to identify and interpret similes in a given text	Yes	Similes are explicit comparisons that help models understand nuanced descriptions, useful for creative applications.
Metaphor Detection	The ability of a machine learning model to identify and interpret metaphors in text	Yes	Metaphors convey implicit meanings and are essential for natural language understanding and sentiment analysis.
